

Accelerate RIM Outcomes

For more than 17 years, we have harnessed the most successful, progressive practices from across our community network, creating baselines of performance through the Gens & Associates research platform. We now invite you to achieve World-Class RIMSM performance at an accelerated rate through our Premier Membership offering.

The Premier Membership with Gens & Associates

Maximizing Workforce Value

The regulatory function is at a juncture as the life sciences industry continues to change driven by innovation, pandemic response, and the need to become more agile and resilient. The current environment is characterized by complex processes and systems, operational inefficiencies, cost pressures, and the shift to enterprise connectivity, which

require high-quality data across the enterprise. There are also external forces to consider in the form of next-generation structured data submissions and expanding data standards. To modernize Regulatory Information Management (RIM) capabilities, life sciences organizations must have the tools, effective practices, and knowledge to make it happen.

As organizations navigate industry complexities, it is increasingly clear that being "good enough" equates to a higher risk.

Premier Membership – the Data You Need with the Insights to Act

While you have likely experienced the power behind our Benchmark survey data and the active community through which we share valuable industry information, the Premier Membership expands upon those benefits and deepens the collaboration. You'll receive the data you need but also the highly personalized insights to act. The Premier Membership is our most exclusive, invitation-only offering. We accept just 20 members in order to maintain the highest level of service and personalization. Throughout the year, you get continual access to our private events, specialized research and content, and can tap into our network of experts.

Exclusive Benefits for Industry Premier Members

Premier Membership is by invitation-only and capped at a maximum of 20 members to maintain the highest level of service and personalization.

WE ARE COMMITTED TO TAKING THE REGULATORY COMMUNITY TO THE NEXT LEVEL by sharing expertise and knowledge. We approach our work with a spirit of generosity and integrity that is focused on making everyone better!

Our Mission, Everybody Gets Better

While the Premier Membership combines our advisory services and benchmarking capability to work with each individual organization one-on-one, the program incorporates community learning and support. Our collaboration platform consists of private learning webinars, global survey design events to pool

resources and improve the data we collect, and private community debriefs on the latest research and thought leadership. We find that the collective will always learn and innovate quicker, which is why we strongly believe that innovation is a "team sport," and that together, everybody gets better.
